Protillion Biosciences

San Diego, CA, August 21, 2024

Dear Hiring Committee,

I am writing to express my enthusiastic interest in the Bioinformatic Data Scientist position. My background in bioinformatics, programming, and data analysis, combined with a deep passion for drug discovery, makes me an ideal candidate for this role. During my doctoral studies at the Institute of Biotechnology (UNAM), I played a crucial role in extracting meaningful insights from complex biological datasets. My work with Next-Generation Sequencing (NGS) technologies contributed to several high-impact publications, which are showcased on my portfolio: <https://www.lmgb.xyz>.

The innovative application of genomics and bioinformatics to decipher disease mechanisms and develop novel therapeutics aligns seamlessly with my interests and expertise. I am a highly motivated, adaptable team player, passionate about working at the intersection of bioinformatics and drug development. I am eager to apply my skills and collaborate with Scripps' multidisciplinary teams to drive the discovery of transformative medicines.

Thank you for considering my application. I would welcome the opportunity to discuss how my experience and expertise can contribute to Protillion Biosciences' mission of developing life-changing treatments.

Sincerely,

Luigui Gallardo
