Apixio
1850 Gateway Drive, 3rd Floor
San Mateo, CA 94404

San Diego, CA, January 23, 2023

Dear recruiter,

My name is Luigui, and I am writing to apply for this Data Science position because I believe my educational background and work experience make me a qualified candidate for this position at Apixio.

I would describe my background as Data Science and Data Analytics. For almost four years, I worked at the Institute of Biotechnology as a Data Scientist to get novel information from biological data. And now, I want to apply my skills to this industry, and I consider would be a good fit in your company.

Having studied the job description, I am confident I have all the skills, qualities, and qualifications needed to excel in the role. Additionally, I am a fast learner and could quickly adapt to your company. I possess excellent problem-solving capabilities and can manage a significant workload or several projects from different areas without losing track of each of them.

I attached my CV and personal webpage, where you can see my portfolio and publications:
https://luiguigallardo.github.io/web_page/

I'm thrilled at the opportunity to use my experiences to fuel data-driven decisions at Apixio, and I'm keen to continue developing my skill set on the job. I am available for a call or in-person meeting to discuss how I can help Apixio to obtain meaningful information through data.

Thank you for your consideration,

Luigui Gallardo
