Dear Onco360 Hiring Team,

I am writing to express my strong interest in the Website Developer position at Onco360 Pharmacy. With over six years of experience in software engineering and data science, I have developed a strong foundation in building responsive, user-friendly web applications and optimizing digital experiences.

My technical expertise includes developing cloud-deployed web applications using ASP.NET Core and React, as well as extensive experience with Python for backend automation. I am proficient in HTML, CSS, and JavaScript, and I have a proven track record of collaborating with cross-functional teams to transform requirements into functional, high-quality digital solutions.

I am particularly drawn to Onco360 because of your mission to help patients access life-saving medications. Coming from a background in research, I deeply understand the importance of making healthcare accessible and supportive. I would be honored to contribute my technical skills to a team that is dedicated to bettering the lives of those battling cancer.

You can find my portfolio and publications at www.lmgb.xyz. Thank you for your consideration.

Best regards,

Luigui Gallardo
