

Luigui Gallardo-Becerra

DATA ANALYST & DATA SCIENTIST

+1 619 602 0725 | luiguimichelgallardo@gmail.com | www.lmgb.xyz | LuiguiGallardo | luiguigallardo

Data Analyst with 6+ years of experience in statistical analysis, data visualization, and extracting actionable insights from complex datasets. Proficient in Python, R, and SQL, with a proven track record of automating reporting trends and driving data-driven decision-making.

Experience

Graduate Research Assistant (Data Science & Bioinformatics)

Institute of Biotechnology, UNAM

January 2019 - July 2025

- Analyzed patterns in large-scale metagenomic and transcriptomic datasets, resulting in 14 peer-reviewed publications.
- Created automated data workflows using Nextflow and Snakemake for reproducible analysis.
- Managed and optimized high-performance computing (HPC) workflows for large-scale data processing.
- Conducted statistical analyses and feature engineering to identify trends and biomarkers in complex datasets.

Data Engineer

Appen

October 2016 - December 2018

- Preprocessed and analyzed large-scale datasets for AI-driven projects, improving data quality by 30%.
- Implemented SQL-based ETL pipelines for data integration and automated reporting.
- Automated data collection workflows using Python and Bash, reducing processing time by 50%.

Software Engineer (Internship)

Dept. of Computer Science, CUCEI

January 2016 - July 2016

- Developed a cloud-deployed web application using ASP.NET Core for patient record management, contributing to both backend and frontend development.

Education

National Autonomous University of Mexico (UNAM)

PH.D. IN COMPUTATIONAL BIOLOGY

Mexico City, Mexico

January 2019 - July 2025

National Autonomous University of Mexico (UNAM)

MASTER OF SCIENCE IN COMPUTATIONAL BIOLOGY

Mexico City, Mexico

August 2016 - January 2019

University of Guadalajara (UDG)

BACHELOR OF SCIENCE IN MOLECULAR BIOLOGY

Guadalajara, Mexico

August 2012 - January 2016

Key Skills

- Data Analysis & Visualization:** SQL, R, Python, Statistical Analysis, Data Cleaning, Data Visualization
- Big Data & Cloud:** ETL Pipelines, Database Management, AWS, Docker, Apache Spark, HPC
- Bioinformatics:** NGS Analysis, Metagenomics, Transcriptomics, Nextflow, Snakemake
- Tools & Frameworks:** Jupyter, RStudio, Git, Power BI, Excel, Pandas, Tidyverse
- Soft Skills:** Problem-solving, Stakeholder Communication, Project Management, Analytical Thinking
- Languages:** English (Full professional proficiency), Spanish (native)
