

Luigui Gallardo-Becerra

DATA SCIENTIST & BIOINFORMATICIAN

+1 619 602 0725 | luiguimichelgallardo@gmail.com | www.lmgb.xyz | LuiguiGallardo | luiguigallardo

Data Scientist with 6+ years of experience in bioinformatics, machine learning, and large-scale data analysis. Proven track record in developing predictive models, implementing automated pipelines, and extracting insights from complex biological datasets. Published author with 13 peer-reviewed publications in computational biology.

Experience

Graduate Research Assistant (Data Science & Bioinformatics)

Institute of Biotechnology, UNAM

January 2019 - July 2025

- Developed machine learning models to analyze metagenomic and transcriptomic datasets, resulting in 13 peer-reviewed publications.
- Created reproducible bioinformatics pipelines using Nextflow and Snakemake for automated data processing.
- Managed and optimized high-performance computing (HPC) workflows for large-scale genomic analysis.
- Conducted statistical analyses and feature engineering to identify biomarkers in complex biological datasets.

Data Engineer

Appen

October 2016 - December 2018

- Preprocessed and analyzed large-scale datasets for AI-driven projects, improving data quality by 30%.
- Implemented SQL-based ETL pipelines for data integration and automated reporting.
- Automated data collection workflows using Python and Bash, reducing processing time by 50%.

Software Engineer (Internship)

Dept. of Computer Science, CUCEI

January 2016 - July 2016

- Developed a cloud-deployed web application using ASP.NET Core for patient record management, contributing to both backend and frontend development.

Education

National Autonomous University of Mexico (UNAM)

Mexico City, Mexico

PH.D. IN COMPUTATIONAL BIOLOGY

January 2019 - July 2025

National Autonomous University of Mexico (UNAM)

Mexico City, Mexico

MASTER OF SCIENCE IN COMPUTATIONAL BIOLOGY

August 2016 - January 2019

University of Guadalajara (UDG)

Guadalajara, Mexico

BACHELOR OF SCIENCE IN MOLECULAR BIOLOGY

August 2012 - January 2016

Key Skills

- Programming & Data Science:** Python, R, SQL, Bash, Machine Learning, Statistical Analysis, Data Visualization
- Big Data & Cloud:** HPC, Docker, Apache Spark, AWS, ETL Pipelines, Database Management
- Bioinformatics:** NGS Analysis, Metagenomics, Transcriptomics, Nextflow, Snakemake, Phylogenetics
- Tools & Frameworks:** Jupyter, RStudio, Tableau, Git, Django, React, Shiny, TensorFlow, scikit-learn
- Soft Skills:** Problem-solving, Team collaboration, Project management, Scientific communication
- Languages:** English (Full professional proficiency), Spanish (native)
